FOR ANYONE WITH A SPARE COUPON, GIFT CARD OR TICKET

Your spare code. Your price. Your money, straight to you.

Pass on a coupon, voucher, gift card, or a movie or event ticket you won't use, to people near you. You set the price, buyers ask for it, and you hand the code over in a live handover. ShopQ never sees the code and never holds the money.

PASSING ON A SPARE, TWO WAYS

	In groups and chats today	On Shopq
BUYERS	You post "anyone want this?" and hope someone in the group sees it in time.	Your listing shows to buyers near you, with how far away you are, and they ask for it in the app.
NUMBER	Your phone number is out there from the first message.	Your number is shared only after you accept a request.
CODE	You send the code and hope they pay, or they pay and hope it works.	You share the code only in a live handover, after the buyer's PIN checks out.
PROOF	If it fails later, it is your word against theirs.	The buyer confirms it works on the order. You both see the same steps.

WHAT YOU GET

Your own listings
Every spare you post, under My Listings, with each request on it.

Your own link
Share any listing from its share icon. Buyers tap it and ask for it.

Your price
You set it. Tickets stay at or below the printed price.

Money straight to you
Buyers pay you by UPI or cash. ShopQ never holds it.

Wants near you
Buyers nearby post the coupons they want. Send an offer.

A PIN at every handover
The buyer's 4-digit PIN proves it's them before you share the code.

Listing is free. No fee on the sale, and no percentage of it.

Any ShopQ fee is shown to you before it applies (shopq.ai/pricing). Turn the page to go live in three steps.

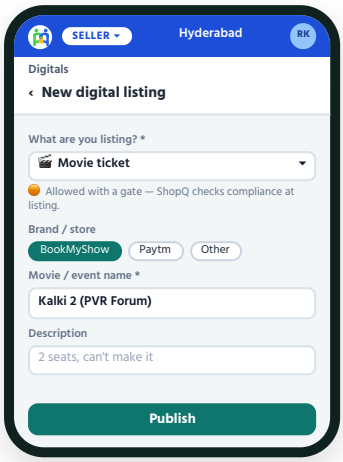
GETTING STARTED

Get live in three steps

DIGITALS · SIMPLE

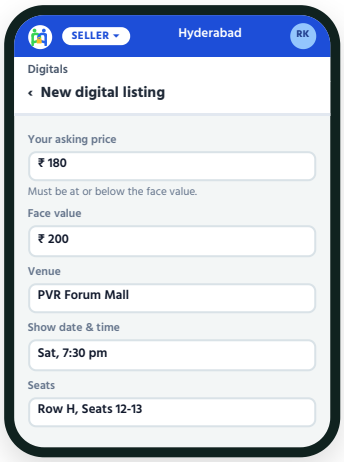
Install ShopQ and sign in with your phone number. Tap the pill at the top and switch to **Seller**, open **Digitals** and tap **Post**.

1 Say what you're listing



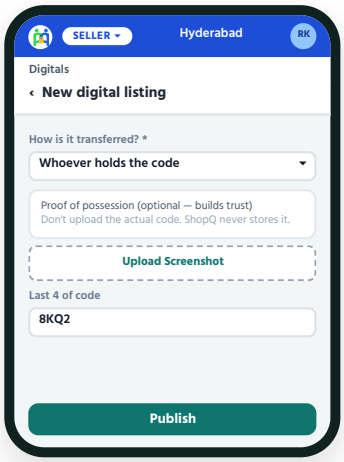
- A movie ticket, event ticket, coupon, voucher or gift card.
- Pick the brand or store, or **Other** and type its name.
- A green or amber dot tells you how that kind is checked (page 3).

2 Set your price



- Tickets: enter the printed face value. Your price must be at or below it.
- Coupons, vouchers and gift cards: your price, and where it works: **Online**, **In-store** or both.
- Add a **Valid till** date.

3 Show proof, then publish



- Proof you have it: a screenshot with the code hidden, and its last 4. Never the code itself.
- It saves as a draft. Check the buyer's preview, then tap **Publish**.

Tip: add a listing image. Without one, your listing shows a generic icon like every other one.

THEN, FOR EVERY SALE

Start to finish

Requested
A buyer near you taps **Request transfer**, with an offer if they like.

Accepted
Tap **Accept**. Other requests are declined; numbers are shared now.

Connect
Meet or call. One of you taps **Start handover**.

Verify
The buyer reads out their PIN. Enter it, tap **Verify buyer**.

Share the code
Now give the buyer your code, directly. They check it works.

Completed
The buyer checks it and taps **Confirm received & working**

Paid to you. The buyer pays you directly, by UPI or cash: verify the code works before anyone pays. Add your UPI ID in **Profile → UPI Settings**; without one, buyers pay you in cash. ShopQ never holds the money, and never sees the code.

STUCK? THREE WAYS TO GET HELP

Ask ShopQ

Sell it the right way

DIGITALS · ADVANCED

Each kind has its own rule

Coupons pass on as they are. Gift cards, vouchers and tickets are checked when you list. If something can't go live, the form tells you before you publish, under **Can't list this yet**.

ON THE FORM: **What are you listing?** and **How is it transferred?**

KIND	THE RULE	WHAT THE APP SAYS
Coupon	Pass it on as it is.	Legal to pass on as-is
Gift card · **Voucher**	Only the redeemable code is passed on. No stored or face value.	Allowed with a gate
Movie · **Event ticket**	Enter the face value; your price must be at or below it. Rajasthan and Maharashtra bar ticket resale for profit, so a ticket listed with either state is refused.	Allowed with a gate
Locked to your identity	Tied to your name or ID, so it can't be passed on.	ShopQ can't list this
Software · **bus tickets**	Not offered: there is no compliant way to resell them.	Not offered

HOW IS IT TRANSFERRED? YOU CHOOSE WHEN YOU LIST

MOST CODES · THE DEFAULT

Whoever holds the code

Anyone with the code can use it. You reveal it only during a live handover: meet or call, verify it works together.

THROUGH THE BRAND

Transfer via issuer

The code or pass transfers through the brand or platform. The buyer gets it directly once you accept.

CAN'T BE LISTED

Locked to my identity

Tied to your name or ID and can't be passed on. ShopQ can't list it.

THE HANDOVER

Start handover	After you accept, either of you taps **Start handover** on the order. The buyer gets a 4-digit PIN; you don't see it.
Verify buyer	Ask the buyer for their PIN, enter it and tap **Verify buyer**. A wrong PIN is refused.
Share the code	Once verified, share your code with the buyer, directly. ShopQ never sees it.
Confirmed	The buyer checks it works and taps **Confirm received & working**. If they neither confirm nor report a problem within 48 hours of your verify, it completes by itself.

YOUR LISTINGS AND ORDERS, AT A GLANCE

Draft
Only you see it. Check the preview, then Publish.

Live
Buyers near you can see it and ask for it.

Taken
You accepted a request. It's off browse.

Paused
Closed by you, or sold. No longer in browse.

New take request
Accept it, or Reject.

Accepted — hand over
Start the handover; verify the PIN.

Dispute — respond
The buyer reported a problem.

Completed
The buyer confirmed it works. Done.

HOW BUYERS SEE YOU

A clear listing, with your proof on it

Buyers see the brand, your price, how far away you are, where it can be used, the valid-till date, and your proof: the screenshot and the last 4. Under it they read: **The full code is exchanged directly after you connect. ShopQ never stores it.** Your name sits under "Listed by".

To bring buyers in, open your listing and tap the **share** icon. Send it to your groups, or anyone who asked.

Your number stays hidden until you accept a request.

Wants near you

Your Digitals home lists what buyers nearby want. Tap **Respond**, add a price and note, **Send offer**.

When they accept

Your contact is shared with that buyer, and you run the same PIN handover.

Your offers

Every offer you sent, marked Pending, Accepted, Rejected or Withdrawn.

Edit while live

Change the price, details or proof. The kind and face value stay as listed.

Used it yourself?

Tap **Close listing**. It no longer appears in browse.

Need help?

Tap the question mark on any screen.

IF SOMETHING GOES WRONG

Keep the record straight

- Never share the code before the buyer's PIN is verified.
- The buyer can't go ahead? **Cancel** the accepted request, and your listing is open to others again.
- Code didn't work? The buyer taps **Report a problem**, and you see **Dispute — respond**. ShopQ helps both sides reach a resolution; it never holds money.
- ShopQ can take down a listing that breaks the rules. Requests on it are cancelled.
- Your listings and orders are also on the web at shopq.ai. Sign in with the same phone number.

Know others with spares? Bring them on.

Anyone with a ShopQ account can list in Digitals: no shop or business needed. Share your listing, or this handbook, with them. Questions, or want to become a ShopQ partner? WhatsApp us on **95503 96660**.
